CONFLICT OF INTEREST POLICY

PURPOSE: To inform local Workforce Development Boards (WDBs) of the requirement to develop a Conflict of Interest Policy. *To rescind Western Piedmont Workforce Development Area (WPWDA) Conflict of Interest Policy dated April 1, 2022.*

BACKGROUND: Consistent with Workforce Innovation and Opportunity Act (WIOA) Section 121(d)(4)(A) and (C), any organization or entity that has been selected to perform multiple functions in a Local Area must develop a written agreement with the Local WDB and the CEO to clarify how the organization will carry out its responsibilities while demonstrating compliance with WIOA and corresponding regulations, the Uniform Guidance, and Conflict of Interest policies of both the state and the organization or entity performing multiple functions.

This policy includes guidance on North Carolina's General Statute (Attachment A) that prohibits public officers or employees from benefitting from public contracts. In addition, Potential Conflict Scenarios Due to NCGS 14-234 (Attachment B) have been crafted that relate to Workforce Development Board members and NCGS 14-234 and are included as a guide.

Guidance for procurements and conflicts of interest can be found in the following documents: 2 C.F.R. § 200.318, Public Law 113-128 Workforce Innovation and Opportunity Act Section 107(h), and North Carolina General Statute 14-234.

PROCEDURE: Local WDBs and **contracted** service providers must follow and be aware of all applicable federal, state, and local conflict of interest requirements when providing services (directly or indirectly) funded by Workforce Innovation and Opportunity Act (WIOA) resources. WDB members and staff must be committed to maintaining the highest standards of ethical conduct and to guard against problems arising from real, perceived, or potential conflicts of interest. See Code of Conduct example (Attachment C).

All local WDB members and staff must sign and attest to the Local WDB Conflict of Interest Policy. Signed Conflict of Interest Policies must be maintained at the Local office.

CONFLICT OF INTEREST POLICY

The purpose of this Conflict of Interest Policy is to protect the interest of Western Piedmont Workforce Development Board as a public body charged with the oversight of federal and/or state funds, when it is contemplating entering into a transaction or arrangement that might benefit the private interest of an officer, staff member, or director or might result in a possible excess benefit transaction. This includes persons and entities involved in the competitive selection processes to identify service providers and award funding using federal funds which must be free of conflicts of interest: real, apparent, or organizational. This policy is intended to supplement, but not replace, any applicable state and federal laws governing conflicts of interest applicable to organizations responsible for maintaining the public trust for the use of federal, state, and other grant funds for the purpose of carrying out goals and program requirements, including the responsibility to maintain the reputation and integrity of the entity, organizations, and agencies and programs.

Boards

It is the policy and expectation of the Workforce Development Board (WDB) that its members will fulfill the fiduciary duties applicable to their service as members of the WDB. Due to the legal and statutory structures of the WDB, it is expected that conflicts of interest may arise and this policy is intended to provide a framework that will allow the work of the WDB to be achieved without the fact of or appearance of impropriety. Where this document references “member” it shall mean any agent, WDB employee, officer, service providers, and board member. The WDB and all other agencies receiving direct financial assistance through the Workforce Innovation and Opportunity Act (WIOA) shall avoid conflict of interest, real or apparent.

It is the responsibility of each member to govern the actions of all other members in compliance with the Conflict of Interest Policy. If a member thinks there is a possibility of a conflict of interest, real or apparent, on the part of another member, it is his or her affirmative responsibility to immediately bring the matter to the attention of the Workforce Development Board Director. Therefore, no WDB member will discuss, present proposals, or vote on any issue as to which the member has an economic interest unless specifically questioned by the other members as part of a scheduled opportunity for all interested parties to present information. A member may vote on and may discuss any matter what would not have any impact on the member.

No official or employee of the WDB or contracting agency authorized in their official capacity to negotiate, make, accept, or approve, or to take part in the negotiating, making, accepting, or approving any contract or subcontract in connection with a project shall have directly or indirectly any financial or personal interest in any such contract or subcontract. It shall be against the policy of the WDB or contracting agency for any employee or volunteer to directly or indirectly ask, demand, exact, solicit, accept, receive, or agree to receive anything of value for themselves or any other person or entity in return for:

- Being influenced in the performance of their job or position;
- Being influenced to commit or aid in committing, or to collude in, or allow, any fraud, or to make opportunity for the commission of any fraud on the WDB or contracting agency; or
- Being induced to do or admit to any act in violation of their official duties.

Each member shall annually confirm a statement that affirms such person:

1. Has received a copy of the Western Piedmont Workforce Development Board Conflict of Interest Policy;
2. Has read and understands the policy; and
3. Has agreed to comply with the policy.

Discovery of an Actual or Potential Conflict of Interest

Upon the assertion of a possible violation of this policy, the WDB Chair or Vice-Chair will appoint an ad hoc committee to review the circumstances, report their findings to the Board for discussion and vote, and recommend a course of action in the event a member is found to be in violation. Action may include, but is not limited to, a declaration that the member is to be removed from the Board position and a request to the Consortium Board to make a new appointment.

Procurement

All negotiations of a contract for or with potential service providers must be conducted with arm's length negotiations. The definition of an arm's length negotiation is a negotiation where the parties to the negotiation have an opposing economic interest to that of the organization with which they are negotiating.

No WDB member (whether compensated or not) shall engage in any activity, including participation in the selection, award, or administration of a sub-grant or contract supported by WIOA funds if a conflict of interest, real, or apparent would be involved. Such a conflict would arise when:

- The individual,
- Any member of the individual's immediate family,
- The individual's partner, or
- An organization which employs, or is about to employ any of the above, has a financial interest in the firm or organization selected for the award.

No WDB member, member of his/her immediate family, officers, employees or agents of the WDB member's agency or business shall neither solicit nor accept gratuities, favors, or anything of value from service providers, potential service providers, or parties to sub-agreements.

A WDB member shall not cast a vote, or participate in, any decision making capacity on the provision of services by such member (or any organization which that member directly represents), nor on any matter which would provide any direct financial benefit to that member.

No WDB members shall participate in a governmental decision including voting on a matter (including recommendations, appointments, obligating, or committing the WDB to a course of action) when such action influences a decision or exercises judgment in making a decision. Any member with a potential or actual conflict of interest shall comply with requirements for public disclosure and recusal.

Work Experience Placements

The Division of Workforce Solutions (DWS) strongly discourages the practice of placing participants in workforce training located at the board office, NCWorks Career Center, or administrative entity due to the potential of conflicts of interest. Placement at these locations should only be allowed where there is specific documentation in the participant file that the particular experience meets the participant's career goals, skills needs, and there is no other placement opportunity available.

Service Providers

Although the WIOA program is not an entitlement program, it should be accessible to any individual, in any local area, who is eligible and suitable for available services subject to Local Workforce Development Board policies and procedures. However, when applicants have a close relationship with WIOA staff members, management, and other specific stakeholders of the Workforce Development System, access to program services should not be based on such relationships or based on political influence. It is possible that even without any intention to misuse WIOA funds a decision to enroll an individual in the program could be perceived as improper. Such a perception could cause noncompliance with state and/or federal law.

General authorization for providing funds to participants will comply with the standards of conduct for maintaining the integrity of the program and avoiding any conflict of interest in its administration. Local Chief Elected Officials, Local Workforce Development Boards, designated fiscal agents, and administrative officials must help meet the objectives of WIOA through effective policies, procedures, and safeguards that ensure the integrity of these public funds. Throughout the Local Workforce Development Areas safeguards must be in place ensuring that all those served in the program are not only eligible and suitable but also detached from being part of the perception of impropriety or conflict of interest.

In the event a service provider is related to a WDB staff member or officer, appropriate firewalls must be in place to ensure the staff member/officer does not directly monitor, supervise, or provide oversight. An alternate staff member/officer must be identified to assume the oversight responsibilities.

Code of Conduct

A written set of standards (Code of Conduct) governing the performance of the WDB and its employees, officers, or agents related to real or apparent conflicts of interest is a requirement of 29 CFR 95.42. **Code of Conduct** (Attachment C) will serve as WPWDB's Code of Conduct Standard.

Firewalls

Proper firewalls must be in place to ensure the transparency and integrity of the procurement process and demonstrate to the public and to the Department of Labor that the selection process was impartial and that no preferential treatment was given to the awardee. A "firewall" is an established policy or procedure that acts as a barrier or protection against an undesirable influence, outcome, or authority. Examples of firewalls include but are not limited to organizational arrangements that provide clear separation of duties and responsibilities, including confidentiality and disclosure agreements.

No entity or individual that has any role in the issuance of a solicitation may compete or submit a proposal under that procurement action, including the development of requirements, drafting the Request for Proposals (RFP) or Letter of Intent for Bid (IFB), evaluation of proposals/bids, and identification of the best entity.

Potential Conflict Scenarios Due to NCGS 14-234

(Responses provided by Frayda S. Bluestein, David M. Lawrence Distinguished Professor of Public Law and Government, University of North Carolina at Chapel Hill, School of Government).

All Workforce Development Board (WDB) members are considered public officers appointed to serve or represent a public agency under an interpretation of NCGS 14-234. Local Workforce Development Board members, who are unpaid volunteers, provide oversight to local activities funded with Federal Workforce Innovation and Opportunity Act (WIOA) resources.

General Comments:

Responses below are based on North Carolina Statutes, mainly G.S. 14-234 and 234.1. Since there is federal money involved in this program, you would also want to look at any federal or state regulations that deal with conflicts of interest in contracting and voting. Sometimes they are broader than what we have in state law. Also, some of these scenarios do not involve legal issues but may create ethical or perception issues. In general, it is a good policy to avoid the appearance that businesses have connection to people who are on the board derive some advantage from that connection. It's a good practice to make sure the WDB undertakes steps to avoid that perception, for example, by opening contracting and training opportunities broadly and avoiding board members voting on matters involving their employers or business associates.

Possible scenarios:

1. A WDB member, who is also the owner of a private company, wins the bid through a WDB competitive procurement to provide training services to customers. He has abstained from any discussion or voting on the WDB decisions regarding the procurement.

If the WDB awards this contract, and it is a contract with that entity, then there would be a violation of G.S. 14-234, since a prohibited contract occurs if a person has a "direct benefit". One definition of direct benefit is that the person owns 10% or more of the company that is contracting with the agency. It is not possible to avoid liability under this statute by abstaining from voting. If there is an exception that applies, then the person with the direct benefit is required to refrain from voting and participation in discussion. I don't know of an exception that would apply here so the contract would be void, and the member would be subject to prosecution for a misdemeanor. That is not likely to happen but obviously this should be avoided.

2. During an on-the-job training period, a company providing the training pays wages to the WIOA participant and is then reimbursed by the WDB with WIOA funds. A WDB member is a senior executive within the company that trains the participant and receives the wage reimbursement.

I don't see legal violation here. The payment is a reimbursement, and there is no evidence that the WDB members owns the company or derives income or commission directly from the contract. Indeed, even G.S. 14-234 has an exception that allows reimbursement under public assistant programs if certain protections are in place. (See subsection (b)(4).) Along those lines, I would note that if there was a decision by the WDB regarding the selection of

the company to provide the training, this board member should probably not participate in that process or vote. As noted above, I do not know if these boards have procedural rules or conflict of interest policies, but it might good to consider some rules about participation in these decisions when there is connection, even if it is not a legal conflict.

3. WDB has staff from a local bank to present at a financial management workshop where customers are allowed to sign up for bank services. A representative from that local bank is a WDB member.

This situation might invoke the prohibition in G.S. 14-234.1 if it could be shown that the board member used his WDB position or information he had because of his service on the WDB to benefit his employer or himself. Even if there is no violation of the statute, it seems to me that this person should not be involved in the process of choosing the bank and that the board should take steps to avoid the appearance of favoritism.

4. WDB offers a job/ health fair and uses a local healthcare provider to provide free screenings to the public. A representative of the local healthcare provider is a WDB member.

It is not clear that the member in this scenario benefits from the arrangement, but it seems possible that the provider might benefit from the exposure to new clients/patients. If that is correct then the issue is whether the member/representative was involved in the decision to choose the provider in violation of G.S. 14-234.1 and even if not, did the process create an appearance of favoritism.

5. WDB offers a job/ health fair and uses a local healthcare provider to provide screenings to the public for a minimal fee. A representative of the local healthcare provider is a WDB member.

Same as above, although in this case there is a benefit to the provider so again, possible violation of 14-234.1 or possible appearance of favoritism.

6. WDB hosts a workforce summit and provides door prizes - free tickets from a well-known amusement park and a complimentary stay at a local resort. Both businesses have members on the WDB.

I don't know of any legal problem with this. I suppose some might feel that they are using this opportunity to promote their businesses. The matter might look bad if they are the only ones allowed to provide door prizes. If there are other businesses that provide door prizes, it seems to me there is less of an appearance issue.

7. WDB has competitively procured the purchase of t-shirts for WIOA program participants. The successful bidder is a WDB member. He has abstained from any discussion or voting on the WDB decisions regarding the procurement.

See answer to question #1. It doesn't matter that the contract was competitively bid or that the person didn't participate in voting or discussion. It's still a violation of G.S. 14-234.

8. WDB members use the services of public Career Centers (which WDBs oversee) to screen potential employees. (This is a free service provided to all employers).

I don't see any legal problem with this. It could be awkward if there was a dispute about an employee and the member ends up in an adversarial position with the WDB, but that seems unlikely.

9. In which scenario(s) should only a conflict of interest policy be employed; rather than disqualifying the citizen from being a WDB member?

None of the statutes require a citizen to be removed, but in some cases, a person might have to make a decision about whether they want to have the contract or be on the board. Scenarios 1 and 8 involve that kind of issue. I do think that it is important to make sure that members understand the limitations serving on the board might create. It's good to have business people on the board but a good policy and a good understanding of the legal and perception issues will be important to maintain credibility of the board and its work.
